

To make things easier on the day of your visit, please:

- **Complete and bring the New Patient form**
- Do not come without my agreement if you have symptoms of an infection
- Keep clothing simple and bring a towel if you prefer to be covered for modesty
- Have cheque or cash ready or ask for online banking details at the clinic

At the clinic:

- Ignore the clamping signs. You may park anywhere except the far right corner, reserved for people with disabilities.
- It is good hygiene to wash your hands when you arrive and leave, and avoid spending too long in the waiting room, especially if colds and infections are going round.
- Masks are no longer obligatory, but I will be glad to wear one if you prefer.

I look forward to seeing you

*Gordon*
